

COMANCHE TO HAVE ROUND-UP

Lowie Withdraws From Race For Representative of The 104th District

LOCAL BUSESSES MAY CARRY THE MAIL

WILL REPLACE THE FRISCO DAY MAIL SERVICE

Mail may be carried by motor bus from Fort Worth to Brownwood serving the towns covered by Robinson Stage at the discontinuance over the Frisco day trains effective July 1st according to information obtainable from Fort Worth sources.

Tentative plans call for the carrying of first class mail in locked pouches on the bus that leaves Brownwood at 12:00 p. m. each day and on the bus that leaves Fort Worth at 12:15 p. m. The bus toward Fort Worth passes through Comanche at 1:50 p. m. and the one for Brownwood passes Comanche at 4:10 p. m.

Interested towns may ask for additional mail service on the bus that leaves Brownwood at 8:30 a. m. and the one that leaves Fort Worth at 9:30 a. m. as well as the busses that leave Brownwood at 5:05 and the one that leaves Fort Worth at 4:10 p. m. according to Fort Worth information.

On these tentative schedules no registered, second, third or fourth class mail will be handled.

Fort Worth parties are insisting that mail be carried over the earlier busses, claiming that much of the mail carried over the day train into Fort Worth which arrived at 2 p. m. consists of orders for merchandise that is loaded out on package cars and truck lines and that in as much as the bus does not arrive until almost 6 o'clock in the afternoon both shippers and retailers will be inconvenienced.

Mail from the line gathered up by the bus that leaves Brownwood at 8:30 a. m. and which arrives in Fort Worth shortly afternoon would permit a reply on night trains and by regular freight lines they say.

OWN BUSINESS DEMANDS TIME

W. E. LOWE

W. E. Lowe, candidate for Representative withdraws from the race in accordance with his statement which is as follows:

"Two business matters, neither of which was apparent when I announced for Representative, coming up, one of which might result in my being out of the district before the next session of the Legislature convenes, as well as other reasons not necessary here to mention, has caused me to withdraw from the race.

I delayed my answer when first solicited, trying to clear the situation so that I could give my time to the race now, as well as business later on and I was reasonably assured that I could in each instance give my undivided attention.

My friends assure me that they will take care of the situation in every way, but it is not my nature to impose such duties on others. For the past two weeks I have been tied up practically the entire time with private matters and at this time little let up in sight, and I don't care to assume the burden of a double load. All of this does not mean that I am engaged in some gigantic enterprise or business but does mean that I have been and am now faced with a number of details that may confront any man who has any real business.

My greatest regret in making this announcement is in the fact that I feel I have warm and loyal friends who will be genuinely disappointed in this decision. This statement may sound egotistical, but I feel that it is true, hence I make it.

To my friends one and all I say, that I expect as a citizen to take a part and interest in the political affairs of my County and State in the future, just as I have in the past.

HOMER SHANKS of Clyde

CLYDE CITIZEN FOR CONGRESS

Homer Shanks, of Clyde, has announced his candidacy for Congress from the 17th district, subject to the Democratic primaries. Mr. Shanks has opened his campaign headquarters in Abilene, where he is keeping in close contact with the voters of this district. He was here in the interest of his campaign Tuesday.

Mr. Shanks was born near Rockdale, Milam County, Texas, July 27, 1850. His father died when he was only 14 years of age, leaving his mother with eight children to support and heavily in debt.

Through floods and insects, crops were short and prices were low and the bare necessities of life were all the larger family could have during the early years of childhood, yet Homer was always a student and went to the country school and normal schools and Simmons summer school until he qualified himself to teach in the public schools where he worked through six successive terms. He was also a student at Drughon's Business College at Abilene.

He was then elected Tax Collector of Callahan County, later moved to Cottonwood to run a country bank, then came to Clyde to organize the First State Bank, where the deposits grew within six months after he took over the bank from \$13,000. to \$130,000.

He then organized the Callahan County Farm Loan Association which has loaned more than half a million dollars to the farmers and ranchmen on long time and low rates. He also organized other stock companies and cooperative enterprises in his home town, which include gin companies. He was twice elected President of the West Texas Ginners Association at Abilene and last year was elected President of the Texas State Ginners Association at Dallas, where he has made thousands of friends.

He was also last year elected vice President of the West Texas Farm Loan Men's Association at Big Springs.

He holds the position of Secretary of the Clyde Chamber of Commerce which place he has held for several years where he has accomplished a great success in advertising Clyde's fruit and truck section and in the organization of various industries of the Clyde country for mutual benefit.

He has led the movement to clean up the fence rows in the Clyde section and in planting an immense acreage to young fruit trees, it being estimated that 125,000 fruit

CITY COUNCIL TO WAGE WEED CUTTING CAMPAIGN

A weed cutting campaign in Comanche begins Monday in an effort to rid all premises, especially vacant lots of weeds, according to action of the City Council at its meeting Monday. Mayor Eanes issues the following statement: Cut the Weeds. Cut 'Em Now. There are three reasons why the weeds should be cut, viz: They are unsightly, unsanitary, and furnish a rendezvous for mosquitoes and

other insect pests. There are also three reasons why you should cut yours: For your sake, for your neighbors sake, and for the community's sake.

The City urges that "all men everywhere" within the city limits cut their weeds and grass on their premises. Won't you join in this civic move to make the town more slightly and more sanitary?

J. R. EANES, Mayor

REAL 'INJUNS' TO FEATURE HOME-COMING

At a meeting of the Lions Club Monday night at the Ridgeway hotel it was decided to stage an annual round up in Comanche classed as one of the largest of its kind in the State.

At the same time Comanche will celebrate its 70th anniversary as it was in May 1858 that the court house was moved from Coma to the present site of Comanche.

Many old timers will recall those stirring days, some of them are still with us here, some are living in other parts of the State, so this huge celebration will be staged here in historic old Comanche and will bring to these old timers the trials and hardships of early pioneer days as they remember them.

Feature Pioneer Days
The round up feature of the celebration will consist of calf roping, bucking horse riding, bull dogging wild steers, trick riding and roping range relay races and many other cow boy events with over \$2,000.00 in cash prizes, and the feature of the affair will be a large band of real fullblooded Comanche Indians here to lend color by giving their different dances, their own Indian Tepee village showing the way they live, they will be seen making bead work such as belts, hat bands etc.

The celebration is to last two days and nights and the old ball park is to be made ready by enlarging it and building a large grandstand and bleachers to seat many thousands of people who will be here to attend this huge affair.

The business men of Comanche will spare no effort or money to make this round-up and homecoming a big success and it is to be staged every year and it will be only a matter of time until it will be known to the far corners of the United States.

Tentative dates have been set for August 31 and September 1, two big days and nights, and the arena will be well lighted and refreshments will be served at all times.

The committee who are in charge of this large round up and homecoming are N. N. Durham, Judge R. A. Luker and Bill Carpenter and with these men at the helm with the backing of all the business men and citizens of Comanche its success is assured.

May Know Indians

When the notice came out that Comanche was to have the round-up and the band of Comanche Indians, there was no one more interested than Mr. M. V. Fleming.

Old Uncle Mart, as Mr. Fleming is affectionately called by all who know him, is interested in the Indians as it was away back in the early days that Uncle Mart was camped on the North side of Indian Creek and a band of Comanche Indians camped on the South side and Uncle Mart made many trips to the Indian camp and renewed many old acquaintances, and among the older Indians that will be here, Uncle Mart will have a chance to again renew old friendships, that is what is interesting to him.

Many of the older Comanche Indians will remember the raids they made through this country, they will also remember the brave settlers, both men and women who fearlessly stood their ground and fought and drove their invaders to the north.

Your Buick Dealer stands back of the USED CARS he sells

Your Buick dealer's good reputation in the community is worth far more to him than the profit he makes on any used car transaction.

He is the head of an established business and he knows that in order to get more business, he must please his present customers.

He carries a representative stock of used cars, including both used Buicks and cars of other makes—and he represents them honestly.

LIVE STOCK SHOWN TO BE ON INCREASE

A raise of approximately a million dollars was placed on the property rendition for County Taxes by the County Equalization Board, at their meeting which adjourned June 16 after a two day session.

The property as rendered by the tax payers and before any raise was assessed by the Commissioners Court was \$11,534,143.00 and this amount was increased to approximately \$13,000,000 by the Commissioners Court according to Jack McGuire, Tax Assessor.

Even with this raise the valuation stands at approximately one half million dollars less than the valuation fixed by the Equalization board last year when the valuations reached \$13,742,719.

While the exact figures are not available, Mr. McGuire states that personal property, especially sheep, goats and cattle showed a decided increase in values this year as compared with those of last year while real estate again showed a decline.

One oil company in the county has a valuation on its property of \$165,000 higher than that of last year.

The estimated County Taxes which will be paid, based on the property rendition of \$13,000,000 at 45 cents on the one hundred dollars will be \$58,500.

Highway No. 10 To Be Important State Road

WILL OPEN A VAST TRADING OPPORTUNITY

A modern highway into a rich territory to the Southwest and to the Mexican border at Del Rio, whence run traffic arteries into Mexico, will be secured when plans are carried out for improving and extension of State Highway No. 10.

Much of this territory is anxious for an outlet to Fort Worth, according to Ed McRae, secretary of the Tourist Bureau of the Association of Commerce. McRae pointed out that the territory which will be tapped by the projected highway, much of which already has been built, is one of the most varied in resources in the State.

The territory to the Southwest is rich in farming and ranching resources, including cattle, sheep and goats. It also has oil, and has great scenic advantages for tourist travel McRae said. Fish and game and an abundant in certain sections of the territory.

Outlet to Fort Worth

The next step toward extension and improvement of State Highway No. 10 will be taken at a meeting to be called in the near future by the Stephenville Chamber of Commerce. A meeting already has been held at Brady, and a conference was held in Fort Worth, during the West Texas Chamber of Commerce Convention.

At the latter conference, citizens of Rocksprings declared that its territory sought a road outlet to Fort Worth, since it is largely a livestock district and needs a more direct route to livestock centers like Fort Worth.

McRae said an object of the meeting at Stephenville would be paying of certain gaps on sections of the State Highway No. 10. After that meeting, McRae and Jewell P. Lightfoot will appear before the State Highway Commission at Austin relative to furthering the work on Highway No. 10.

The highway, extending from Sherman to Del Rio in its designation, runs southwesterly into a trade territory that is logically Ft. Worth McRae said. Edwards County alone, on the route, annually produces \$3,000,000 worth of wool and mohair.

Area Off Railroads

McRae pointed out that a considerable area of this livestock district is off railroads and that cattle must be driven some distance to railroads for shipping. And then, he added, the shipments must be routed in a roundabout way to market. When State Highway No. 10 is completed, it will be possible for a truckload of livestock to leave Rocksprings late in the afternoon and be delivered on the Fort Worth market the next morning, McRae explained.

At present, on State Highway No. 10, the Tarrant County section is paved seven miles beyond Benbrook. It is known in Tarrant County as the Benbrook-Cresson Road. Eight more miles to the county line are to be paved when the grading has settled. Bridges have been completed on this section.

In Erath County is a gravelled road across the county, and it is planned to have this topped with asphalt, McRae said. The next county on the southwesterly route is Comanche County.

McRae explained that Comanche already had made plans with the State Highway Commission by which the road across Comanche County would be straightened, new grade built and concrete drainage structures made. Shortly thereafter it is thought that this section will be gravelled, according to McRae.

Brown County Plan

McRae said that Brown County, the next on No. 10, will shortly have a bond election providing for paving of its section of the highway across the county. The next county is McCulloch. Its county judge and commissioners and the Chamber of Commerce at Brady believe McCulloch can put over a road bond issue after Brown County's program is carried, McRae said. This would include paving State Highway No. 10 across the county.

In Menard County, the next on the route, there are about 12 miles of road. It is believed that plans will be worked out in the near future to build a permanent grade and bridge structures with surfacing later, according to McRae.

This takes Highway No. 10 to the north line of Kimble County, and leaves Kimble and Edwards Counties to be taken care of, McRae said. Since both these counties are anxious to have a direct route to Fort Worth, little difficulty is anticipated in completing road programs which would bring State Highway No. 10 to the Val Verde County line.

Good Roads to Mexico

From Val Verde there is a surfaced road into Del Rio, from which point there are several good highways into Old Mexico. The route of State Highway No. 10 goes through the following county seats: Grandbury, Stephenville, Comanche, Brownwood, Brady, Junction, Rocksprings and Del Rio.

Ultimately, it is hoped by road advocates that State Highway No. 10 will be an important artery into Mexico through which will flow commerce to the Fort Worth market. State Highway No. 10, when

completed to the border, will give a direct route in a southwesterly direction to Mexico. No rail facilities are afforded as directly as this highway will be when completed, McRae said.

McRae pointed out the annual increase in trucking of livestock to the Fort Worth livestock market. Six years ago, the year's total was only 16,000 truckloads of livestock. Last year, it was 41,000 and this year it will pass the 50,000 mark.

State Highway No. 10 will develop one of the richest territories in the State, McRae asserted, pointing out that it is in a district which now lacks only adequate transportation facilities.—Star Telegram.

All is in readiness for the rodeo which is to be held here Monday and Wednesday of next week by the Comanche County Rodeo Association according to an announcement made by a representative of the association.

Creamery In New Location

The Hico Ice and Cold Storage Company is moving its whole milk and sweet cream business into the new quarters at the Ice Plant this week.

One of the main features of the new home is the excellent cold storage space, which has two large vaults one which will be used in the manufacturing of ice cream which will care for 300 gallons in the process of hardening.

Ample space is provided at the new location for the addition of machinery for a complete creamery, it being the plan of the company to add these departments as soon as the bulk of milk bought will justify it, according to Harry Gleason, Manager.

The moving of the plant into its new location is regarded as one of the high points in the growth of the dairy industry in the county and is one of a series of progressive steps taken by the Hico Concern since entering business in Comanche a little over a year ago. The Company, according to Mr. Gleason is enjoying a growing business in Comanche and is anxious for the plant to expand with the growth of the milk industry of the county.

Good Crowds At

Dairy School

With forty pupils in attendance ranging in age from boys not yet in their teens to women past the proverbial three score and ten years the Comanche County Dairy School got underway Monday evening at the district Court house under the direction of County Agent, J. A. Barton and with P. H. Walser, Dairy Specialist of the Cotton Belt, as an instructor.

Before beginning the school, Mr. Walser addressed the members of the Comanche Lions Club at the luncheon at the Ridgeway on the possibilities of dairying in Comanche County, a number of members of the Club later attending the school.

With crayon and black board and following largely the question and answer method, Mr. Walser turned the meeting at the court house into a regular school and held the interest of his audience throughout the meeting.

Stressing the importance of having cows to freshen at the right time of the year, Mr. Walser by statistics showed that on the average cows which freshened in the fall would produce at least \$10 per year more profit than those which freshened in the summer or spring.

A group of cows whose record was studied revealed that the annual profit from their dairy products above feed costs varied from a five dollar loss to a hundred and seventy five dollar profit and that the butter fat produced per cow was due largely to the kind of cows and pointed out that bull circles would do a great deal in Comanche county to improve the grade of cattle. In substantiation of this, he cited statistics to show that in a West Texas county where a bull circle was organized in 1908, the cows in that community as a result of that circle were now giving a gallon of milk more per day than the cows were in 1908, making a net profit of \$60 more per cow per year.

Stressing the importance of feed, Mr. Walser emphasized the value of growing the feed at home stating that little could be made on cows if the feed had to be bought, but adding that if it had to be bought, this should be at harvest when the prices are the lowest.

Mr. Walser told of the value of feeding a balanced ration and of feeding each cow according to the milk she produced, which he said was essential if a profit it to be made.

In the course of the school Monday it developed that Bull Circles had already been formed at Beattie, Energy, Trinity and Sidney and that others were being planned.

The school will conclude today with a school this evening at 8:30 at Sidney.

Other schools held during the week which drew good crowds and continued the work started at Comanche were at De Leon Tuesday, At Energy on Wednesday and at Beattie Thursday.

According to Dr. I. M. Cochran, Manager of the Comanche team, every player must be 35 years of age or over and must be a business or professional man of the town he represents.

An admission fee will be charged and divided equally among the two teams, and will be given to charity of the two towns.

Both teams according to their managers are on edge for the contest, and a good game is expected.

The probable line up is as follows: De Leon: A. M. Allen, R. W. Bran, W. Z. Compton, Frank Daniel, R. D. Davis, E. E. Gentry, C. E. George, J. J. Horn, A. A. Hansford,

Wires are the Nerves of Industry

HAVE you ever seen a progressive city without wires, hidden or exposed—the copper wires, the metal nerves of industry?

Every surgeon knows that to cut a tendon, sever a sinew, part a nerve, is to restrict the functioning of the human body.

Every engineer likewise knows that to separate a community from its source of light and power is to set that community back a long span of years. Were this separation to be prolonged suspended animation would take effect and city progress would be done a death blow.

We are accustomed to the free use of hands and legs, and we are also accustomed to the daily advantages of reliable and ample electric light and power. It is only as we picture what deprivation would mean that we can fully appreciate the blessings of this modern age of health and light and power and the other conveniences that are ours.

Four great values—for every purse and purpose—
offered to you right at the time of the season when
every car owner wants to replace his worn tires for
holiday driving. Take no chances on getting there
safely, quickly, economically—and getting home
again.

No matter what experience you have had with other
tires—remember this: there is only **one** tire that is
Gum-Dipped and that is the Firestone Gum-Dipped
Tire. Firestone saturates every cord in the carcass
in a rubber solution and insulates every fiber of every
cord with rubber, which minimizes internal friction,
heat and wear. That is why Firestone Gum-Dipped
Tires are setting new mileage records on hundreds of
thousands of cars, as well as on fleets of taxicabs
and motorbuses.

You will be amazed to hear about our low prices on
the famous Oldfield Tire. For more than four years
these tires were sold as the foremost quality tire,
securing higher prices than for any other high grade
standard tire. Now Firestone has taken them over
and you will find our prices less than any others, for
such quality.

Courier Tires and Tubes are other great values
which Firestone manufactures and distributes direct
to us. A very small investment will place a set of
these tires on your car.

Airway Tires are our special Firestone-built bar-
gain offer to owners of small cars.

All the service of applying these tires on your car—
and of taking care of them later—is included in these
money-saving prices. Come in today.

FIRST BAPTIST CHURCH

The Sunday School enrollment is being revised. In the general assembly of the School Sunday morning the departmental superintendents and their teachers will be asked to account for all absentees.

Vastly more careful and efficient work is now being done by our faithful teachers than we have ever had. Preparation and punctuality show results.

The orchestra is an attractive feature of our evening service. Come early enough to hear them play several pieces before the general song service starts.

All the Baptist Ministers of the county were called to a denominational meeting at Howard Payne Friday. Matters of general denominational interest, especially of this section engaged their attention.

Sunday morning the pastor will preach on "Render the Account of Thy Stewardship."

Sunday evening "Falling from the third story" or "The man who went to sleep during the sermon." Special reference to all pew snoozers.

The deacons met Monday evening and reorganized with Wm. Reese, Chairman and G. W. Jessup, Sec'y. Monday preceding the fourth Sunday in each month has been fixed as the regular meeting time for the board of deacons.

With an improved FLY-TOX Hand Sprayer, spray FLY-TOX directly toward the ceiling, also on the draperies, in the closets and on the screens. It will not leave a stain on the most delicate of wallpapers, hangings or fabrics. Spray upwards until all parts of the room are filled with the finely atomized spray. Within a few minutes all the mosquitoes in the room will be dead, regardless of whether the windows and doors are open or closed. In addition to being stainless, FLY-TOX is fragrant, is absolutely harmless to people but sure death to all household insects. Every bottle guaranteed.—Adv.

NERVES

Went to Pieces

"I suffered a long time, before
I tried Cardui," says Mrs. Lillie
Pruitt, 130 "K" St., Anderson, S. C.

"I was badly run-down in
health. My nerves 'went to
pieces', and I had to go to bed.
"I got so bad off, I could not
bear to have anybody walk
across the floor of my room.
The least little thing upset me.
Sometimes I became hysterical.
I had bad pains in my back and
sides, and my head and limbs
would take spells of aching,
which almost set me wild.

"One day I saw where a wo-
man, who had a trouble like my
own, had been relieved by Cardui.
I decided at once to try it. It be-
gan to help me from the very
first. I took Cardui regularly, for
several months, and my improve-
ment was so remarkable my fami-
ly and friends were delighted."
Try Cardui for your troubles.

SERVICE

In the telephone industry in every city the first ob-
ject of the company is service. It is only by serving well
that this industry can prosper. It is only through being
served well by the telephone company that a city or com-
munity can prosper.

The service of the telephone utility saves steps, labor,
time, worry, and in every way adds to the joy of living
and the comforts of home, to the profits of labor and the
welfare of industry.

The achievements of management and inventive gen-
ius are reflected in the benefits of telephone service in
this city and in every part of the United States by better
living conditions for all of the people.

Our desire is to make this service complete and sat-
isfactory. Every part of our organization is ready and
anxious to help to this end.
